

What is most important to you?

We want patients and carers to help us make our care better. Your stories and ideas will help us give the right support to people in our hospitals.

Tuesday 21 April 2026

At Christchurch Hospital

Time: To be confirmed

Fundamental care means the basic things we do to help patients. This includes checking skin and pain, helping with eating and drinking, using the toilet, washing and helping people move around.

Your experience will help us to understand how we can do these things better and what is important to you.

Travel Costs Paid

We will pay back reasonable travel costs so everyone can join in.

Easy Read Information

We can give you information in other formats if you need it.
